## Digestion Instrument

Model YR06298

### Product Description:

- ✓ This sophisticated instrument comes with a large, high-resolution color liquid crystal display for clear and precise viewing. It offers a wide range of adjustable parameters for digestion temperature and timing, providing exceptional versatility. The system is highly intelligent, capable of storing five preset digestion programs and one customizable program to meet various requirements.
- ✓ Fully compliant with national standards, all technical indicators either meet or exceed these guidelines. The automatic start timing function activates once the water sample reaches the digestion temperature, ensuring accurate and efficient operation. Additionally, the instrument is energy-saving with high thermal insulation, automatically ceasing heating when the preset time is reached. A high-transmittance protective cover ensures safety and allows full visibility of the entire experiment, enhancing user experience and control.
