Enjoy personalized advice for the correct preventive and corrective maintenance of your equipment, thanks to Kalstein manuals and articles, special catalogs and video tutorials.

Kalstein worldwide

With more than 25 years growing with our customers, Kalstein's multi-format and modern content is now present in more than 10 countries and growing.

#Letsgivemore

Thanks to your purchase, a donation is made to a non-profit foundation that fights cancer and helps vulnerable communities.

Delivery Logistics

We take care of all the logistics necessary for the shipment of your goods, whether by sea, land or air.

AI Model Recommendation

Model recommendation through AI is used to analyze user behavior, preferences and specific characteristics in order to recommend the most suitable product models for each customer.

KALSTEIN® Chemiluminescence Reagent

Fertility Hormone Test

Model YRA377 // YRA384

Product Description:

- ✓ The hormone test kit is designed for use with chemiluminescent immunoassay analyzers and includes tests for Total-hCG β , PRL, E2, P, T, FSH, LH and AMH. This routine test is crucial in reproductive medicine, providing clinicians with valuable insights into endocrine disorders and overall physiological functions. The kit is compatible with a range of analyzers, offering versatility and reliability for comprehensive hormonal assessment.
- ✓ These kits are compatible with Chemiluminescence Immunoassay Analyzer models YR06389 and YR06390, providing a secure and efficient solution for comprehensive infectious disease testing.
