OUR SERVICES

Benefits and Support

In Kalstein France, we take care of the full satisfaction of our customers, that is why we provide value-added services of the highest level based on our experience.

Online Inductions and Trainings

In any part of the world, receive your induction or training from our specialized team of engineers

Quick Response

Our work team is always available to response all your consults or questions, in order to support you in any situation.

#Letsgivemore ❤️

Thanks to your purchase, a donation will be made to a non-profit foundation that fights against breast cancer and helps most vulnerable communities.

Technical Support

Enjoy of personalized advice for the correct preventive and corrective maintenance of your equipment, thanks to Kalstein's manuals and articles, special catalogues and video tutorials.

Delivery Logistics

We take care of all the necessary logistics for the dispatch of your goods, whether is by sea, land or air.

Kalstein Worldwide

With more than 25 years growing with our customers, Kalstein's multiformat and modern content, is now present in more than 10 countries and increasing.

High Quality Automatic Control Water Distiller 20L

Model Series YR05974

Product Description

Electric distilled water is generally used in high-quality stainless steel, water heating from the water and pure water, according to water production is divided into 5 liters, 10 liters, 20 liters three. According to the water control way to break water automatic control and ordinary type. According to the water quality to separate single steam and double distillation.

Features:

- The whole machine is made of high quality stainless steel.
- Coil condensing structure, good cooling effect, large amount of water.
- Cooling water is returned to the evaporating barrel to save water resources.
- The drain valve can discharge concentrated water in the barrel to improve the fouling conditions.
- The lack of water automatically cuts off the heating power and continues heating after the return water is replenished to the working water level.
- The copper immersed heating tube has high thermal efficiency and long service life..

Lack of Water Automatic Control 20L

Model	Voltage	Features	Power	Water out	Dimension (carton)(cm)
YR05974	380V/50Hz	Lack of Water Automatic Control	15KW	≥20L/h	51×36×80

How does the climate affect your microscope?

microscope is an instrument that allows observing and measuring objects that are too small to be seen with the naked eye. This is achieved through the use of lenses or a system of mirrors that collect and focus light from the object being observed.
