OUR SERVICES

## Benefits and Support

In Kalstein France, we take care of the full satisfaction of our customers, that is why we provide value-added services of the highest level based on our experience.

### Online Inductions and Trainings

In any part of the world, receive your induction or training from our specialized team of engineers

### Quick Response

Our work team is always available to response all your consults or questions, in order to support you in any situation.

### #Letsgivemore ♥

Thanks to your purchase, a donation will be made to a non-profit foundation that fights against breast cancer and helps most vulnerable communities.

### Technical Support

Enjoy of personalized advice for the correct preventive and corrective maintenance of your equipment, thanks to Kalstein's manuals and articles, special catalogues and video tutorials.

### Delivery Logistics

We take care of all the necessary logistics for the dispatch of your goods, whether is by sea, land or air.

### Kalstein Worldwide

With more than 25 years growing with our customers, Kalstein's multiformat and modern content, is now present in more than 10 countries and increasing.

## KALSTEIN® Veterinary Lamps

### LED Shadowless Operating Lamp (Dual Head)

Model YR06116

#### Product Description:

- ✓ The counterweight design of the lamp head, which follows applicable safety requirements, brings more safety use
- ✓ Exquisitely structured focusing system
- ✓ The manual focusing technology enables simple and convenient operation and solves the technical difficulties in focusing of LED surgical shadowless lamps to realize non-grade focusing.

#### Perfect lighting effect:

A novel LED cold light source is used, with no UV rays and IR rays in the spectrum, no need for heating. Having a round-shaped lamp head design, it follows the illuminating principle of shadowless lamps. The light is evenly radiated at 360° and the beam is more concentrated, which meets the needs of deep cavity lighting and creates a most realistic and clear operating area.

#### HD camera system:

Several optional camera system combinations including internal and external cameras are available to meet different needs and various transfer interfaces, which are an important part of a digital operating room, are provided to facilitate remote teaching, R&D, and data archiving to perfectly create an integrated operating room system at the hospital.

#### High temperature resistant detachable handle:

Made by imported high-end medical-grade PPSU materials; the pressing and plugging in/out operations are simple and convenient; it can be sterilized at a high temperature ( $\leq 160^{\circ}\text{C}$ ) to meet the aseptic requirements of operating rooms.

#### #Letsgivemore

Thanks to your purchase, a donation will be made to a non-profit foundation that fights against breast cancer and helps most vulnerable communities.
