OUR SERVICES

Benefits and Support

In Kalstein France, we take care of the full satisfaction of our customers, that is why we provide value-added services of the highest level based on our experience.

Online Inductions and Trainings

In any part of the world, receive your induction or training from our specialized team of engineers

Quick Response

Our work team is always available to response all your consults or questions, in order to support you in any situation.

#Letsgivemore

Thanks to your purchase, a donation will be made to a non-profit foundation that fights against breast cancer and helps most vulnerable communities.

Technical Support

Enjoy of personalized advice for the correct preventive and corrective maintenance of your equipment, thanks to Kalstein's manuals and articles, special catalogues and video tutorials.

Delivery Logistics

We take care of all the necessary logistics for the dispatch of your goods, whether is by sea, land or air.

Kalstein Worldwide

With more than 25 years growing with our customers, Kalstein's multiformat and modern content, is now present in more than 10 countries and increasing.

KALSTEIN® Hotplates**Thermostatic Magnetic Stirrer with Multiple Positions****Model YR02948****Product Description:**

Magnetic stirrers are often used in chemistry and biology. They are preferred to motorized gear-driven stirrers because they are quieter, more efficient and have no external moving parts that can break or wear out (other than the simple bar magnet). Because of its small size, a stirring bar is more easily cleaned and sterilized than other stirring devices. They do not require lubricants that can contaminate the reaction vessel and product. They can be used inside hermetically sealed vessels or systems, without the need for complicated rotating seals. Magnetic stirrers can also include a heating plate or some other means of heating the liquid.

Definitive Characteristics :

- ✓ Very compact and simple to operate
- ✓ Digital temperature and speed display, heating temperature: Rt-380 degrees and mixing speed: 100-1800 RPM
- ✓ Heat resistant and corrosion resistant aluminum alloy housing for durability
- ✓ Ceramic coated aluminum heating plate for excellent heat distribution and corrosion resistance
- ✓ Specially designed housing prevents spills from damaging the electronics inside
- ✓ Secondary thermal insulation plate prevents heat loss and eliminates heat damage to electronic components
- ✓ Adjustable temperature and rotation speed

KALSTEIN® Hotplates**Thermostatic Magnetic Stirrer with Multiple Positions****Model YR02948****Product Specifications :**

Modelo	YR02948
Superior material de la Placa	Blanco cerámica
Remover exactitud de velocidad	± 1 rpm
Dimensión cerámica superior para cada posición	180 × 180
Tiempo de trabajo	Continuar
Posición	2
Remover la velocidad	Pantalla Digital
Rango de temperatura para cada posición	Ambiente a 400 grados
Precisión de temperatura	± 1 grado
Control de la temperatura	PID
Pantalla de temperatura	Pantalla Digital
Termostato Exterior	Para medir y controlar el valor de la temperatura del líquido junto con el panel frontal
Termostato Interior	Controla y mide la temperatura del agitador de la placa caliente
Potencia del Motor para cada posición	8W DC14V
Potencia del producto para cada posición	410
Capacidad de revolver para cada posición	2000
Material de la carcasa	Superfina de metal
Peso neto (KG)	10
