Enjoy personalized advice for the correct preventive and corrective maintenance of your equipment, thanks to Kalstein manuals and articles, special catalogs and video tutorials.

Kalstein worldwide

With more than 25 years growing with our customers, Kalstein's multi-format and modern content is now present in more than 10 countries and growing.

#Letsgivemore

Thanks to your purchase, a donation is made to a non-profit foundation that fights cancer and helps vulnerable communities.

Delivery Logistics

We take care of all the logistics necessary for the shipment of your goods, whether by sea, land or air.

AI Model Recommendation

Model recommendation through AI is used to analyze user behavior, preferences and specific characteristics in order to recommend the most suitable product models for each customer.

KALSTEIN® Chemiluminescence Consumables

POCT Consumables Strips

Model YRA404

Product Description:

- ✓ POCT (Point Of Care Testing) Consumables are designed for early pregnancy diagnosis and pregnancy status assessment. These reagents measure progesterone and human chorionic gonadotropin, essential for pregnancy monitoring and management. Progesterone protects the endometrium and promotes early fetal development, while HCG, secreted by placental trophoblast cells, maintains the corpus luteum and promotes the production of key hormones.
- ✓ Accurate detection of these indicators enables early diagnosis and comprehensive assessment of pregnancy status, and is crucial for the identification and management of pregnancy-related diseases.

Technical Parameters:

Model	YRA404
Specification	24 Test/Box for POCLia
Component	Magnetic Beads
	Substrate
	Washing solution
	Pipetting Tip
	Magnetic Tube
Storage	2-8°C
