KALSTEIN® Conductivity Meters
Portable Conductivity / TDS / Salinity Meter

Model YR01818

Product Description:

- ✓ This versatile measurement device features a large LCD screen with a controllable white backlight for clear visibility. It incorporates a built-in microprocessor chip with intelligent functions such as auto calibration, Automatic Temperature Compensation (ATC), data storage, function settings, auto diagnosis, auto power off, and undervoltage prompt.
- ✓ The device supports auto recognition of 8 standard conductivity solutions with options for Europe & USA, and China. It employs advanced conductivity measurement technology with one-point calibration of the conductivity electrode (constant K=1), meeting accuracy requirements for tests ranging from 0.5 $\mu\text{S/cm}$ to 200 mS/cm . Users can switch between conductivity, TDS, salinity, and resistivity, with multinomial calculations ensuring precise conversions across the full scale.
- ✓ The conductivity mode features non-linear temperature compensation for high purity water. The plastic conductivity electrode includes automatic temperature compensation for fast and accurate results. Rated IP57, this device is also equipped with a suitcase for outdoor use.
