OUR SERVICES

## Benefits and Support

In Kalstein France, we take care of the full satisfaction of our customers, that is why we provide value-added services of the highest level based on our experience.

### Online Inductions and Trainings

In any part of the world, receive your induction or training from our specialized team of engineers

### Quick Response

Our work team is always available to response all your consults or questions, in order to support you in any situation.

### #Letsgivemore ♥

Thanks to your purchase, a donation will be made to a non-profit foundation that fights against breast cancer and helps most vulnerable communities.

### Technical Support

Enjoy of personalized advice for the correct preventive and corrective maintenance of your equipment, thanks to Kalstein's manuals and articles, special catalogues and video tutorials.

### Delivery Logistics

We take care of all the necessary logistics for the dispatch of your goods, whether is by sea, land or air.

### Kalstein Worldwide

With more than 25 years growing with our customers, Kalstein's multiformat and modern content, is now present in more than 10 countries and increasing.

## KALSTEIN® Veterinary Electrosurgical Unit

### Veterinary Electrosurgical Unit

Model YR06132

#### Product Description:

- ✓ Pure cut: with maximum output power value up to 300W, applicable for any tissue for cutting;
- ✓ Blend cut: applicable to any tissue with slight homeostasis effect;
- ✓ Fulgurate cog: applicable to open surgery with deep and good coagulation effect;
- ✓ Spray cog: suit to a wide area of tissue with a spray of sparks. Penetration is shallower and tissue area is larger than in fulgurate mode
- ✓ Bipolar cog: Minimize damage to tissue by limiting the amount of tissue involved in the electrosurgical circuit.

#### Features:

- ✓ Ease and quick to set up; Compact and light
- ✓ Save time with automatic access to previously used power settings and modes
- ✓ Performs most common office-based electrosurgical procedures, Includes both monopolar and bipolar outputs
- ✓ Ensures consistent clinical performance over a variety of procedures
- ✓ Increased patient safety with a return electrode contact quality monitoring system(REM). The REM system continually monitors patient impedance levels and deactivates the generator if a fault in the patient/return electrode contact is detected.
- ✓ Applicable for general surgery, thoracic surgery, orthopedics, obstetrics and gynecology, urologic surgery, cerebral surgery, microsurgery, ENT surgery, etc.

#Letsgivemore
